CIVIL SERVICE COMMISSION

"CIVIL SERVICE ACT"

HIS HONOUR the Lieutenant-Governor in Council, by Order in Council No. 2903, approved December 16th, 1955, has been pleased to rescind the regulations made pursuant to the "Civil Service Act," governing overtime services, and to substitute therefor the following regulations:—

OVERTIME SERVICES

1. Where an office is required to be kept open to the public beyond the normal working-hours, or where, due to excessive pressure of Government business, shortage of staff, or other exceptional circumstances, an employee is required to work beyond the normal working-hours, and where such overtime services have been approved by the Deputy Minister or an official authorized by him, compensatory time off in the proportion of one hour for each hour of overtime services performed may be sanctioned.

2. Where payment for overtime services is warranted by virtue of the overtime services performed being unrelated to the regular duties of the employee, or because, in the opinion of the Commis-

sion, compensatory time off would interfere with staff requirements, payment may be made wherever feasible and practicable, provided such payment first has been approved by the Deputy Minister of the department concerned and the Civil Service Commission. Where such payment is recommended under this section, the same shall be computed on the straight-time hourly rate in the equivalent ratio to the daily or monthly salary and the voucher forwarded to the Civil Service Commission for approval, pursuant to section 77 of the "Civil Service Act," such voucher to bear the signature of the Deputy Minister of the department concerned, with particulars as to the reason for the overtime and confirming that compensatory time off cannot conveniently be arranged.

3. Except with the approval of the Lieutenant-Governor in Council, these regulations shall not apply to:—

- (1) Employees in receipt of salary in excess of the maximum salary for the position of Senior Clerk—Grade 2;
- (2) Employees having the authority to initiate overtime;
- (3) Employees such as inspectors, auditors, and social workers, where, by virtue of conditions of employment, their hours do not conform with the normal Civil Service working-hours.

4. Where an employee remains on duty for a short period to complete the day's work, such shall not be considered as overtime within the meaning of these regulations.

5. Records of overtime services, whether recompensed by compensatory time off or by payment, are to be kept in a manner satisfactory to the Commission and be available for inspection at any time.

WORKMEN'S COMPENSATION BOARD

"WORKMEN'S COMPENSATION ACT"

UNDERGROUND DIESEL EQUIPMENT ACCIDENT-PREVENTION REGULATIONS

PURSUANT to the provisions of the "Workmen's Compensation Act," the Workmen's Compensation Board has adopted, after a public hearing held at Vancouver, B.C., on January 5th, 1956, the following accident-prevention regulations, effective on and after February 1st, 1956:—

Scope

These regulations apply to construction projects where the work area is below the surface of the earth and such operations do not come within the scope of the "Coal-mines Regulation Act" or the "Metalliferous Mines Regulation Act."

Regulation

No internal-combustion engine using gasoline, naphtha, or liquefied petroleum gas for fuel shall be operated in any underground construction project. Permission to use internal-combustion engines of the diesel type may be authorized upon written application to the Board. Permission shall be conditional on compliance with the following requirements:—

- (a) Such diesel engines shall be new or shall be in a state of repair that will give performance approximating that of new engines.
- (b) The engine shall not be permitted to idle unnecessarily, and operating time shall be kept to a minimum.
- (c) The condition of each engine shall be checked regularly, and the engine shall be maintained in good operating condition by a competent person or persons.
- (d) Each engine shall be equipped with a suitable diesel exhaust-gas conditioner. This conditioner shall be properly maintained and regularly serviced.

- (e) A carbon monoxide tester shall be provided and used for determining the carbon monoxide content of the air in all work areas. Tests shall be conducted at least once each shift during operation of diesel equipment. Carbon monoxide content shall not exceed twenty parts per million parts of air. If contamination of the air should exceed this amount, immediate action shall be taken to reduce the air contamination to allowable concentrations.
- (f) Ventilation shall be provided in the amount of at least 75 cubic feet of air per minute per brake horse-power of the aggregate diesel equipment in use in the underground workings. Ventilation shall be made effective in all areas that diesel engines are operated.
- (g) Instructions shall be issued to all workmen that all diesel equipment be shut down immediately if the ventilation ceases to function. Such equipment shall remain shut down until such time as ventilation is again made effective.
- (h) A record-book shall be provided in which the operators of diesel engines shall be required to report any unsatisfactory condition of the equipment in their care. The results of tests for carbon monoxide shall also be recorded in the record-book.

Dated at Vancouver, B.C., this 8th day of February, 1956.
